24 Hours Hackathon

11 Febraury, 2023

to

12 Febraury, 2023

Innoverse.vercel.app

ABOUT INNOVERSE
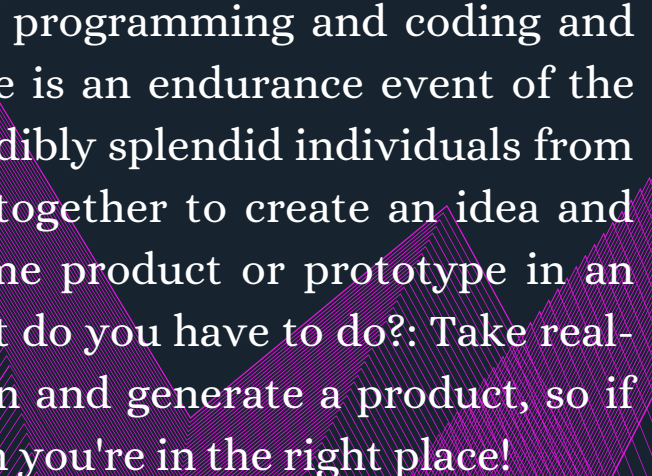

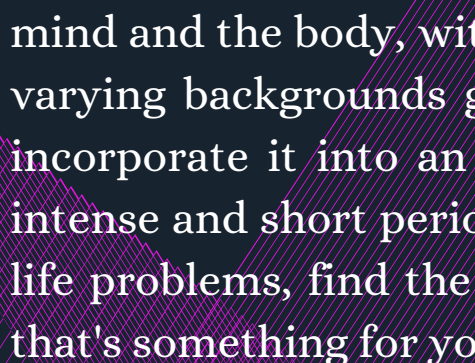

DREAM | DESIGN | DEVELOP

A 24-hour hackathon, which will be conducted in hybrid mode, i.e, in both online and offline mode. It is an intensive, brainstorming event where individuals from different backgrounds, skills and interests cover to diagnose predefined problems, identify the best opportunities and ideate the most viable solution.

At Innoverse, we bring open-source enthusiasts and entrepreneurs together and share new ideas and learn from industry experts.

"INNOVATION is taking two things that exist and putting them together in a new way.
What good is an idea if it remains an idea? TRY. EXPERIMENT. FAIL.TRY AGAIN. CHANGE THE WORLD."

Are you a budding programmer? Or do you consider yourself a pro at programming and implementing your ideas? Innoverse has brought you an opportunity to test how well you know about the world of programming and coding and win amazing prizes. Innoverse is an endurance event of the mind and the body, with incredibly splendid individuals from varying backgrounds getting together to create an idea and incorporate it into an awesome product or prototype in an intense and short period. What do you have to do?: Take real-life problems, find the solution and generate a product, so if that's something for you, boom you're in the right place!

ABOUT DEVSTATION

DevStation is an Open-Source Community that helps tech enthusiasts to grow their self in tech. It provides free resources for developers as well as beginners. We provide a platform for developers to discuss their ideas and projects. We are also providing Jobs & Internships, hackathons, Meet-ups, mentorships, workshops from Industry Experts, Industrials visits, Open Source Projects & more.
